Realistic® Embroidery Simulator

Step this way...

Realistic Embroidery on screen

Timesaving and cost effective embroidery designs and samples.

What is Realistic Embroidery Simulator?

- Scan the fabric or garment on which you are going to embroider your design, adjust the design on it and the system automatically displays it in a 3 dimensional view, as if it has actually been embroidered.
- Decide on the combination of the colors and the general appearance of the design.
- Select a different fabric for appliqué patterns.
- Adjust a variety of factors like color contrast and brightness or printout of your "on-screen sample".
- Make use of special effects and designs.
- Save the Realistic Simulation as a bitmap file, either in bmp, pcx, jpg, tif, pcd, tga format, with the additional advantage of defining the resolution of this picture file.
